BON INTRODUCES NEW RIVERWORKS™ BRICKLAYER HAMMER

(GIBSONIA, PA, USA) – Bon Tool Co. has expanded its offering of Bon Riverworks™ branded tools with the 2018 addition of a [new Masonry Hammer](#). The new 2-pound hammer is forged from a high carbon steel and features a round striking face and a double angle chisel on the back end. The face is enlarged to provide greater striking force and to reduce mis-hits. The ergonomically designed 9" hickory handle of the hammer has a flared end which can be used for light tamping of bricks.

The Bon Riverworks™ product line represents general construction jobsite tools all exclusively forged in the USA. The line-up includes Digging Bars, Crow Bars and other Wrecking Bars, Wedges, Picks, Sledges and hammers.

About Bon Tool Co:

Bon Tool Co., a leading manufacturer of construction tools and equipment in the United States, has been manufacturing construction tools for professionals since 1958. More than 6,000 contractor-quality hand tools are currently available. For more information contact our sales department at 800-444-7060 or visit the website at www.bontool.com.
